(12)

The Mysore S.P.

MYSORE

Reserve Police Lines.

The last D.O. from the I.G. of Police is herewith sub.

The Police authorities condemned these lines as unhealthy owing to their proximity to the Kodikerhally tank & for other reasons.

The Chief Engr. & Secy. P.W.D. writes to say that the Govt. cannot afford to construct

another building
for the Reserve Police
& that they cann
believe that the present
ones can be condemned
altogether as unhealthy.
Draining & planting
all around the
building might
effect a change. The
M.O. Engr - therefore
proposed asking the
Supt. Engr - Western
Circle to do anything
desirable in this
way & to submit
- further report say
- March 1907 when
the Govt may be

able to come to a decision in this matter.

In the meantime the sheds are being utilized as a Depot by the Forest Dept. and the upper rooms as Police ammunition and Kit Store rooms. The Chf. Engr. is of opinion that the sheds may also be used in part for the Executive Engr's Office & Stores as proposed by W. M. Hutchins. The C.E. has offered no opinion regarding this latter suggestion.

As regards the

& move the Special
Reserve men &
Veranmas. Lines, the
Lt. now reports in his
last D.O. that these
Lines are used as a
health camp all the
houses being occupied
by families who have
vacated their houses
in the town on account
of plague. The Lines
are therefore not likely
to become available
till the plague disappears
from Rajkot.
Mr. Lowe is a reply to the

~~The~~ ~~1st~~ ~~Sanitary~~

Mr. Dewars

query 5th Sept. 8. 1900.

The men were per-
-mitted in August
~~1899~~ 1899 by the S. S. to
remain with their
families from the
Lines to some healthy
quarters in the City.
The same arrangement
apparently still holds
good in the absence
of any report to the
contrary. No further
action appears here-
-fore called for tho
the Chf. Engr. makes
a further report in

March next and
Govt is able to decide
finally about the
present Reservoir

with reference to his
orders of the 29th Aug/01
in the margin of the D.O.
D.O. 29th April/00, HBK

8

The Inspector General
states in his letter no 4434/477
dated the 8th June 1901, that
by effecting certain alterations as shown in the plan
herewith submitted, to
Emamna's Lines at Mysore
at an estimated cost
of Rs 10,578, satisfac-
-tory accommodation
can be made available
for Special Reserve
police men.

In this connection
if may be stated that
~~I submit~~, the question
of totally abandoning
on the ground of un-
healthiness, the old
Special Reserve Police
Lines, of which, 8 rooms have
recently been ordered

2 15910-a
mis: 3998

87 28-5-1901-

Please see in the bundle marked (A)

to be placed temporarily at the disposal of the Forces & Department, has not been finally settled. A further report in the matter as ordered in Govt. Pro: No- is awaited from the Chief Engineer & Secretary to Govt., P. W.

It will also be seen from the last para of the order above referred to, that only a temporary occupation of the Tarannum's lines was meant as the same becoming vacant.

A report as to whether the lines in question

5693-94 & 25-10-1900
& 625

Serial no 13 of the file-

by the Special Reserve Police

II

have become vacant, has also not been received.

Please also see Mr. H. Ramanujiengar's memo on the subject.

Serial no. 12 of the file.

Submitted. [signature]

Mr.

24/6 The reports marked I & II above may be called for before passing orders. [signature] 29-6-01

Yes [signature]

4/7

With reference to query II above, the D. I/C of Police states that Examination lines at Mysore are still being used as a Health Camp, that out of the 165 houses 75 have already been occupied and that applications for the rest are being received daily owing to the outbreak of Plague in the City of Mysore.

Submitted

[illegible] 2/7. P.J.O.

As regards query I reple
is yet due from the Chief
Engineer.

Submitted. 6/8/07

30/7. From the information
now furnished, it does not
seem possible to permit of the
Railway (Veeranna's lines)
being made available for the
accommodation of the Special
Reserve Police, at any rate
so long as the plague continues
to rage in Mysore.

The other report called for
from the Chief Engineer may
perhaps be awaited before
passing final orders.

30.7.07

Send a reminder to Ch. Engr
7.8.07

Subd

The report from the Chief
Engineer is received. He states
that an estimate for Rs 656 for
fencing round the Special
Reserve lines was sanctioned,
that the work has been partly

completed, that the planting will be finished this season and that it will take some time before any opinion can be formed as to the effect of this planting. He further adds that the lines and surroundings are perfectly dry and that no special action for draining is necessary -

SN 21/9/01

This may be communicated to Secretary of State for India's reference & enquiry with his last letter on the subject

OFFICE OF THE

INSPECTOR GENERAL OF POLICE IN M

No. 1263/94 Dated 14 Septbr

Enc. 3

From

THE INSPECTOR GENERAL OF POLICE IN MYSORE.

To

THE SECRETARY TO THE GOVT. OF MYSORE,
GENERAL AND REVENUE DEPARTMENTS.

Sir,

I have the honor to submit in original for perusal and kind return, papers noted in the margin regarding the sickness among the Mysore Special Reserve Police and members of their families. During my late visit to Mysore, I inspected the Lines on the 31 August 99, in company with the Chief Plague Officer and acting Civil Surgeon and though the drains and the surroundings were kept clean, the Medical Officers found over a dozen of the men ill and anaemic. I asked the Police Superintendent to examine all the Police Constables and the members of their

× Letter No: 69 dated 3 Septr 99 from the Chief Plague Officer Mysore,

DKt No 56 of 5 Septr 99 from the Dy Comr Mysore, with its Enclosure.

DKt No 57 of do: from do: do.

their families carefully and prepared a statement of sick among them. It will be observed from the statement submitted by him that out of 50 constables, 36 adults and 44 children, 28 constables, 12 adults and 22 children are on the sick list. This indicates a higher rate of sickness and even the constables who are not actually ill, have gone down in their general condition and vigor. The men were so disheartened that they applied to be allowed to go back to their lodgings in the city to recoup their health. I have permitted them to do to subject to the approval by the Superintendent of the lodgings selected by the constables and on the clear understanding that the whole force will be required to remove into Nirana's Lines if Plague showed unfortunately again break out in the city.

2. There have been so many complaints of late of sickness in these Lines and the opinion of the Police Superintendent and other officers against the suitability of these Lines for occupation by the Special

Special Reserve Police is so strong that it is very desirable to have a Committee appointed to decide once for all as to the sanitary condition of the Lines and its suitability for use by the Special Reserve Police and the measures, if any necessary to improve it and make it fit for their occupation without risk. If the Government are favorable to the appointment of such a Committee, the members may consist of the Senior Surgeon and Sanitary Commissioner, Dr. Smythe. the Durbar Surgeon, Superintending Engineer; Western Circle, Sanitary Engineer with the Government, the Chief Plague Officer, Mysore and the Deputy Commissioner Mysore District.

I have the honor &c
Sir,
Your most obedient Servant

INSPECTOR GENERAL OF POLICE SEP. 99 MYSORE PROVINCE

Enclosure No.

Sir,

In accordance with your personal request, I went over in company with Mr. T. V. Kuppuswami Mudliar, Assistant Surgeon, to the Special Police Reserve Lines and examined the men reported to be ailing, also the ailing members of the families of some of these men.

Mr. Kuppuswami Mudliar

Medical and myself found that over

a dozen of the men of the Force were suf-

fering from Malaria and its effects

viz: Anaemia and enlarged Spleen.

Some of the men of the force were reported

to have been suffering from Dysentery

and were treated in the General Hospital

as in-patients and had been recently

discharged. We found that the wives

and children of nine men, and the Drill

Sergeant Khyroolla Khan were suffering

from the effects of Malaria.

The drains and surroundings of the

lines were kept well conserved.

I have the honor to be,

Sir,

Your most obedient Servant

From The Deputy Commissioner Mysore District

To The Inspector General of Police in Mysore

Dated 5th September 1899

Despatched

Received 11.9.99

General No. 589

No.

Enclosure No. one.

Has the honor to forward herewith for early orders a memo by the Superintendent of Police regarding the Special Reserve Lines with the marginal remarks of the undersigned

Deputy Commissioner
Mysore District

To D.S Police - Mysore

After many pressing
solicitations from the men
of the Special Reserve, I
am led to submit to the
Deputy Commissioner for the
information of the Inspector
General the urgent necessity
of instructions being given
me to have the men and their
families removed to their
old quarters in Bundy
and other Mohallas of the
Town from which they were
removed when the Plague
was at its highest pressure
in March of the current
year.

The occasion for their
urgent removal is the
present Extreme unhealthi-
-ness of the site, they are

forwarded to the Inspector
General of Police for such
orders as he may consider
proper to pass in the matter. I agree
with the Superintendent in
considering that a change of
locality is absolutely necessary.
Whether or not the men are
to be allowed to go back to
their private houses in the
City is a question, as Plague
has not altogether died out in
Mysore, and should it
unfortunately spread again
we will not be doing any
thing beneficial to the
men and their families.
Any amount of accommodation
is available in Veeramma's
Lines. At a small outlay
movement arrangements
could be made for goods
of such of the families as

now occupying - On my frequent inspections of the Reserve Lines, this had come under my personal notice - Just now the sick Roll is getting seriously high and most of the men are getting anemic from continued attacks of fever which I take to be malarial and as their Children and wives are also similarly affected, I have to urge their removal to their old Quarters till better accommodation could be provided.

The last Roll taken by me show that I have 28 men out of a strength of 50; 12 females and 22 children more or less sick and incapable - There has been one death in the family of a Reserve Constable and I am not able to observe the system. During the prevalence of Plague, several Mahomedan families, including that of Pensioned Regimentdar Salar Bonturi, occupied the Lines, and as far as I am aware & they never complained of any inconvenience. To such of the families of the Reserve men as earn additional means of livelihood by pounding paddy &c, it can be easily arranged to supply paddy at the Lines for the purpose by talking over to the Merchants who will gladly send their paddy carts to the spot. If the Inspector-General honours considers that they may be safely allowed to go back to their private

from

Houses in the City, early orders may be passed as immediate change necessary.

H Marshall
Dy Commissioner
5-9-99.

I think we should say this sick lines were not quite the healthiest in the City when we made it how to ascertain how the 4th Bn were found in health when occupying the 1st Bn.

on the present state of his Force, to call upon them for any Special duty in Cases of Emergency. The same anxious Spirit of Interest was present with them, as in Plague times, when I had to depute a body of about 20 of these Reserve for duty at Ormaton in the late rioting.

That the City is particularly Malarial is Evidenced by a Large No. of the Imperial Service Lancers having also fallen ill when they were Quartered in these lines from November till their removal in March, a few days after which the Reserve were pressed to occupy in Consequence of the presence of Plague in the City which had also affected the families of the Reserve. About the

the time of the occupancy
of those lines by the Lancers
a doubtful death was
also reported amongst the
Contractor's servants and
this was also due to or-
-dinary fever and not Plague
when the Health Conditions
of the City and the Suburbs
were otherwise excellent.

Subject to sanction to
give the men and their fami-
-lies a change, they have
been advised to remove
the most sickly into pri-
-vate Quarters in the City
for the present as they
object to get into the Health
Camp which is not quite
finished or Reserved for females.

Under present circum-
-stances I see no other
way and request permission
till such time as the men
are strong and able enough
to

to resume duty to their
full Capacity and require-
ments, that their Rifles
and Batons may be kept
in the District School
next to the Salute Inspection
Office and a Guard placed
over the Reserve Barracks
and Office on such of the
equipment and stores that
are not required for the
present.

This is recommended
to prevent the men coming
twice daily a distance of
two miles for drill and
other purposes. I am also
anxious to have the Impor
Special Reserve strongly
represented for most of the
important Events to come
off in our October Sports
and there is just a possibility
of

of a fatal failure if the men are not given a change and relaxation to recoup their broken health.

I attach for information the list of those sick as taken on the 31st August.

Inspector

THE INSPECTOR GENERAL OF POLICE IN MYSORE.

To

THE SECRETARY TO THE GOVT. OF MYSORE,
GENERAL AND REVENUE DEPARTMENTS.

Sir, In continuation of my letter No: 2196/180 dated 29.11.99, I have the honor to forward herewith for information, copy of docket No: 243 dated 3rd instant from the Deputy Commissioner, Mysore, stating that the Special Reserve Lines are unhealthy on account of their being close to the Kookerhally Tank, cocoanut gardens and a feeder

feeder alongside the Lines and that 2
the men have vacated the Lines
which are being utilized as a
depôt by the Forest department
and the upper rooms as Police
ammunition and kit store rooms.

I have the honor to be
Sir,
Your most Obedient Servant
N. Chandy
for Inspector General of Police.

Forwarding the report of the Superintending Engineer on the Sanitary condition of the Mysore Special Reserve Police lines

E&W 3269

1899-1900 2768 2403

From

The Deputy Commissioner (3a)
Mysore District
Enclosure No. Serial 2.

To

The Inspector General
of Police in Mysore.

Dated 3rd.
Despatched 5th. } March 1900
Received

General No. 243.
No.

Enclosure No.

His numbers 418/26 and

1027/66 dated the 26th July

and 5th September 1899

forwarding for information and reply, letters

numbers 2779 and 3060

from the Superintending

Engineer, Western Circle

touching the Sanitation

of the Police Lines ~

occupied

occupied by the Dinapore Special

26

With reference to the above has to state that every possible endeavours were made to keep the Lines in perfect sanitation, and, the several instructions given by the Civil Surgeon, Communicated to the special Reserve Inspector as to sanitation, Drainage &c. for strict attention, were carried out, as personally inspected week by week by the Superintendent of Police, but as the health of the officers and men and their family continued to suffer, under personal instructions communicated to the Police Superintendent the Lines were vacated and the men have now returned

to Health and duty.

26

The undersigned is of opinion that the situation of the Lines is bad, as we have the Kookerhally Tank, a bathing Reservoir several cocoanut gardens and a feeder along-side of the Lines, which have probably materially helped to make the place un-healthy. The Lines are now being partly used by the Forest Department as a Depôt and we still have the use of the upper Rooms to store ammunition, kit &c.

The question of retaining this block as Reserve Lines is doubtful and orders are solicited thereon at an early date.

My dear Mr.Rangaswamiengar,

Please refer to the correspondence ending with this office docket No.10982/J.1108 dated the 4th instant re the Special Reserve Lines at Mysore.

The Dewan thinks that the appointment of a Committee is unnecessary, that the building in question should be utilized for the accommodation of guests during the approaching marriage festivities and that for the present the Special Reserve Police should be housed in Veeranna's Weaver Lines.

Kindly let me know where the men now live and why they should not be accommodated in the Weaver Lines. In your letter of 17th March last you say that the Special Reserve Lines"are being utilized as a depot by the Forest Department and the upper rooms as Police Ammunition and kit store rooms". What portion of the building is used as above by the Forest Department and under whose orders please? Is not the keeping of ammunition and kit in a place different from where the Special Reserve

men live inconvenient and undesirable and cannot the stores be removed to the weaver lines in which the men are proposed to be located?

An early reply will oblige,

Yours &.,

Sd.. C.Sreenivasiengar.

SECRETARIAT Pol 5.

Bangalore

EN 75 of 99-00 9th. April/

My dear Mr. Sreenivasaiengar,

Your D.O. letter dated 6th. Instant about the Special Reserve Lines at Mysore:

In August last I permitted the Special Reserve men on the suggestion of the Deputy Commissioner Mysore, to remove with their families from the Lines to some healthy quarters in the City as they had considerably suffered in health. One of the men is however still living in one of the houses and office of the Special Reserve force is still held in the Buildings where also are kept their kit and accoutrements. The men are further required to attend there for their drill and to perf their Sentry and other duties.

It is reported that three of the rooms together with Special Reserve Inspector's quarters have been lent to the Forest Department temporarily, by Mr. Madiah for storing gal nuts &c.

Regarding the removal of the Special Reserve men to the Veeranna's weaver lines, I beg to state that the Viranna lines are not suitable for the men to live unless certain additions for office and stores are built and alterations ar made to suit the requirements of Gosha families among the Mahomedan and Maharatta portion of the men.

As a considerable number of Policemen and Officers will have to be deputed from the Districts for duty at the Capital during the approaching marriage of H.H. The MahaRaja these lines are urgently required for their accommodation ar cannot be made available for any other use.

Yours very sincerely,

Bangalore

P. W. Department.

To,

The Inspector General of Police.

Sir,

With reference to your letter No 3268/24 dated 17th March 1900, forwarding copy of Mysore District Deputy Commissioner No: 243 dated 3rd. idem, reporting that the Reserve Police Lines recently built at Mysore are unhealthy for reasons given, I have the honor to inform you that the Government cannot afford to construct another building

building for the Reserve Police, and they cannot believe that the present lines can be condemned altogether as unhealthy. Draining and planting all around the building might effect a change, and the Superintending Engineer, Western Circle, will be asked to do anything desirable in this way, and to submit a further report, say in March next, when the Government may be able to come to a decision in this matter.

II. Meanwhile, the building should not be altered, but may be used in its present condition for other Government purposes, such

such as those mentioned by the ~
Deputy Commissioner, also in part ~
for Executive Engineer's office and ~
stores, as proposed by Mr. McHutchin

Madras Govt.

Madras the 9th October 1911

Your D.O. received yesterday, asking for an early reply to your letter dated 1st October in regard to the proposed removal of the Special Reserve men to the Veerannas Weaver Lines at Mysore:

I do not remember

Leaving received any Do of
the Dispatches on the Subject
& do not know what I
have done with it, if
received. Kindly favor me with
a Copy of the same & oblige

Yours respectfully,

A Langworthy

15 Sept 00

Dear Mr. Superintendent

4

I beg to acknowledge receipt this day of Copy of Your D.O. of the 1st September 1900 re removal of the Special Reserves in respect of Veerasana Lines. During my late visit to Ryaroo it was reported to that the lines were used a health camp, all the

ing occupied by families who
ve vacated their houses in the
n on account of plague.

The lines are therefore not
likely to become available till
plague disappears from Mysore
even then material
terations & additions will have
be made before they can be
for use of the Special Reserve
ers. (Vide my D.O. of 9 April 00)

Yours obediently

Rec'd
14.5.1901

building the back yard walls with mud only and a coping of tiles to protect them, or, with brick in mud and coping, is a matter for decision also, for durability brick in mud is suggested.

V drains are also to be built to the rear of each block to carry away all sewage and surface water into the two main drains and thence into the valley.

The blocks of houses will be protected on two sides by walls of mud in brick and the other two sides by wire fencing with stone uprights 10 feet apart and four rows of wire strung, confining the open bit of land also along side the Railway line to serve as as a Drill and recreation ground for the men and their

Cost in mud with rough mortar plaster for the quantity required is Rs 1810/-

Brick in mud with rough mortar plaster for the quantity required is Rs 3653/-.

Brick in mortar with mortar plaster fine Rs 1101/-

Cost Rs 650/-

their children, planting the sides and the frontage 55 with shady fruit trees.

Two gate ways large and small are provided to th main and side entrances to the lines, and on road side of the main entrance a puck built armoury and school room each 16'x12' with s shelves for kit boxes, ammu nition, stores etc.

Provision has also bee made in the Estimate to ove haul the roofing of the y block and to fix the ridges with c mortar.

The cost of the whole work i,e, repairs, additions, drainage etc, will probably ~~account~~ amount to about ~~Rs~~ 10,000/- will when completed be not only very comfortable and spacious but also healthy quarter

Enc. 1

FROM

THE INSPECTOR GENERAL OF POLICE IN MYSORE.

To

THE SECRETARY TO THE GOVT. OF MYSORE,
GENERAL AND REVENUE DEPARTMENTS.

SIR,

Adverting to your docket No. 363/J.45. dated the 9th July 1901, I beg to forward herewith a copy of letter No. 212 of the 20th July 1901, from the Deputy Commissioner of the Mysore District, reporting that Eranna's Lines (Weaver's Lines) at Mysore are still being used as a Health Camp, that out of the 165 houses 75 have already been occupied and

that applications for the rest are being
received daily owing to the outbreak of
plague in the city of Mysore.

I have the honor to be,
Sir,
Your most obedient Servant
[signature]
Esq. Inspector General of Police.

1901–1902.

Enclosure No.

Sir,

With reference to your memo No. 214/25 of the 11th July, 1901, forwarding copy of Secretary's docket No. 363/2.45, dated 9th idem, I have the honor to state that Veeranna's Camp (Weavers' Lines) and still being used as a Health Camp and that out of a total of 165 houses no less than 75 houses have already been occupied.

Application

Applications for accommodation in the said lines are being received every day owing to the outbreak of Plague in the city and I anticipate that before long the whole of the remaining houses will be occupied.

Thanks &c,

(sd). A. Ramanuja Iyengar

Offg. Deputy Commissioner

Mysore District.

W.McHutchin Esquire, M.I.C.E.,
Offg Chief Engineer of Mysore.

To

H.V.Nanjundayya Esquire, M.A.& M.L.
Secretary to the Government of Mysore,
General and Revenue Departments.

Sir,

With reference to Govt:Pros:No: 5693-94/P.625 dated 25th October 1900, I have the honour to inform you that, on the recommendation of the Superintendent, Government Gardens, who considered that planting round the Reserve Police Lines at Mysore would effect an improvement, an estimate of Rs.656 for this work received from him, was sanctioned on the 11th February last. The work has been partly completed, and the Executive Engineer, Mysore Division has been instructed to arrange, in communication with Mr. Cameron, to have the planting completed this season. It will probably take some time before any opinion can be formed as to the effect of this planting.

2. The Executive Engineer Mysore Division reports that the Lines and surroundings are perfectly dry, and no special action ~~be~~ for draining is necessary.

I have the honour to be,
Sir,
Your most obedient servant,

W. McHutchin

Offg Chief Engineer of Mysore.
